Sullivan	13	3
Total	499	100

**New Hampshire Department of Health and Human Services  
Office of Community and Public Health  
Quarterly *Human immunodeficiency virus (HIV)*/Acquired immunodeficiency syndrome (AIDS)  
Surveillance Report through June 30, 2003<sup>1</sup>**

Technical Notes:

1. All data in this report are based upon information provided to the New Hampshire Department of Health and Human Services under specific legislative authority. The numbers reported may represent an underestimate of the true absolute number and incidence rate of cases in the state. Any release of personal identifying information is conditioned upon such information remaining confidential. The unauthorized disclosure of any confidential medical or scientific data is a misdemeanor under New Hampshire law. The department is not responsible for any duplication or misrepresentation of surveillance data released in accordance with this guideline. All data in this report are complete as of July 31, 2003.
2. Cumulative AIDS cases include all NH residents reported with AIDS from January 1, 1983 through June 30, 2003.
3. Persons living with AIDS include all NH residents reported with AIDS presumed to be alive.
4. Cumulative HIV cases include all NH residents reported with HIV infection (non AIDS) from January 1, 1991 through June 30, 2003 and presumed to be alive. Duplicate reports may be included in this analysis due to changes in surveillance methods.
5. Pediatric case is defined as a patient  $\leq 13$  years of age at time of diagnosis.
6. County is based upon residence at time of disease diagnosis and includes no additional information regarding exposure. The release of county level data is restricted to a time period of at least one year therefore these totals include data through December 31, 2002.
